

Automatic 4 Tool Changer

Toolchanging means truly being able to print in multiple materials, even if they have different requirements, because each material has its own extruder.

Thanks to its custom design and simple setup, the **Moso MT** is the ideal solution for 3D printing any project.

Print Volume	300 x 300 x 300 mm
External dimensions	800 x 600 x 800 mm
Printing technology	FFF
Bed temperature	150°C
Chamber temperature	70°C
Leveling system	Automatic
Weight	90 Kg
Maximum power	2000W

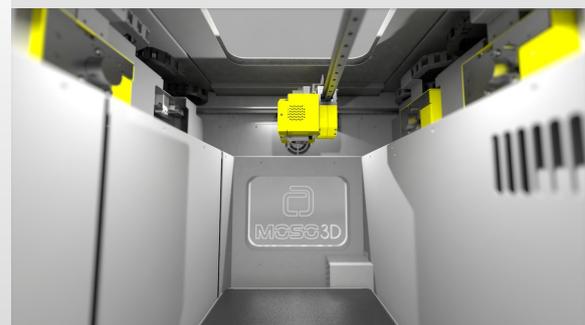

Easy access for maintenance

Intuitive interface + Assistant

Hepa filter + Carbon filter

Automatic multitool system

Automatic 4 Tool Changer

KEY FEATURES

- 1 Four Extruders / Tools
- 2 Auto-leveling & Auto-offset
- 3 Heated chamber & heated bed
- 4 Humidity controlled storage
- 5 Hepa Filter
- 6 Automatic sliding door

Check out our STANDARD, FLEX, TECH, SOLUBLE and MEDICAL packs with custom designed tools , buildplates and materials for each application.

Each extruder are custom designed to reliable print a wide range of materials.

All of them are precision machined components that allows precise control of melting pressure and feed rates, and includes all the electronics to auto adjust the tools and auto bed leveling.

Making 3D printing **easy**

The **Moso MT ECO** is a low CO₂ version of the printer, made with a bamboo enclosure.

A great design keeping the focus on sustainability. Under development.
